unibox[®]
exhibition system

With an extensive range of preconfigured displays which can be supplied as portable or semi-permanent kits, Metro's unique design features will enhance any environment from exhibitions to retail.

//designer display kit

The Metro display range merges design and practicality to create a new format for portable or static displays. Using the Unibox Modular System, Metro kits offer unbeatable flexibility and stability for both public and trade applications.

//metro

With 10 basic structures and the ability to join together, Metro kits can expand and be added to, giving endless configurations. Whether you're looking to stand out from the pop-up crowd or launch a new product, Metro systems can be simply adapted through an extensive range of accessories.

10 basic structures,
endless configuration

Portable Metro kits are easy to use and transport. With its own set of bespoke cases an M1 Metro kit will pack down to 1100 x 750 x 400mm.

- Easy-to-assemble

Other accessories

The Metro designer display kit offers further, additional accessories to enhance your display including: cable management system, carry cases, banner pole kit, clip-in flat slatwall shelves and circular base plates.

//system

It couldn't be easier to put your Metro stand together. Using preassembled frames our M1 unit can be built in 15-20 minutes, including the simple mounting of magnetic graphics.

Portable Metro kits are easily transported in their own set of carry cases.

Stability is achieved with stylish steel bases.

Extension bars allow for simple construction.

how it all works

//easy to assemble

Preassembled frames for quick installation.

Four channels to each post allowing for a multitude of configurations.

Metro frames come with steel tape to accept magnetic graphics.
